

CONTAINS NON-PLANT FOOD INGREDIENTS:

Fulvic Acid.....	10.0%
Inert ingredients.....	90.0%
Total ingredients.....	100.0%

SG Fulvic is a concentrated form of fulvic acid and is recommended for use with liquid fertilizers and micronutrient products to improve fertilizer availability and nutrient uptake.

GENERAL DIRECTIONS FOR USE:

Use 1-4 quarts / acre water run (flood or sprinkler), spray (air or ground), injected into fertigation system, or banded with liquid fertilizers.

Fulvic Acid derived from natural humate sources

CAUTION: KEEP OUT OF REACH OF CHILDREN

This product is not considered hazardous per GHS standards.

SG Fulvic can be applied to most crops and can be added to irrigation water, applied by ground or aerial spray equipment, or banded with liquid fertilizer.

SUGGESTED APPLICATION

Specialty Crops:

1-4 quarts / acre on Potatoes, Sugar Beets, Sweet Potatoes banded at planting with liquid fertilizers.

Row Crops:

1-2 quarts / acre in-furrow on corn or soybeans banded at planting with liquid fertilizers.

Small Grains:

1-2 quarts / acre: At planting, sprayed to soil at planting or near dormancy break or applied through fertigation.

STORAGE AND HANDLING:

Store in a sealed container in a cool dry place, out of direct sunlight. Store at temperatures above 40 degrees F and below 80 degrees F. Use within 36 hours of mixing.

Conditions of Sale and Warranty

1. Seller warrants that this material conforms to the description on the label and is reasonably fit for use as directed hereon. Seller neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond seller's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon, and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by seller under 1. above) resulting from handling, storage and use of material

COMPATIBILITY

SG Fulvic is compatible with most common liquid nutrients and micronutrients; however, **USER ASSUMES FULL RESPONSIBILITY** to ensure compatibility when tank mixing with other products.

Do not mix with other components without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients.
