

NON-PLANT FOOD INGREDIENTS:

10 % Humic Acid derived from Leonardite

SG Humic is a concentrated form of humic acid and is recommended for use with liquid fertilizers and micronutrient products. Humic acid may increase micronutrient uptake.

GENERAL DIRECTIONS FOR USE:

Use 1-4 quarts / acre water run (flood or sprinkler), spray (air or ground), injected into fertigation system, or banded with liquid fertilizers.

CAUTION: KEEP OUT OF REACH OF CHILDREN

This product is not considered hazardous per GHS standards.

SG Humic can be applied to most crops and can be added to irrigation water, applied by ground or aerial spray equipment, or banded with liquid fertilizer.

SUGGESTED APPLICATION

Specialty / Tree Crops:

1-4 quarts / acre on Berries, Peppers, Potatoes, Sugar Beets, Sweet Potatoes, etc.

Row Crops:

1-2 quarts / acre in-furrow on corn or soybeans banded at planting with liquid fertilizers.

Small Grains:

1-2 quarts / acre: At planting, sprayed to soil at planting or near dormancy break or applied through fertigation.

STORAGE AND HANDLING:

Store in a sealed container in a cool dry place, out of direct sunlight. Store at temperatures above 40 degrees F and below 80 degrees F. Use within 36 hours of mixing.

COMPATIBILITY

SG Humic is compatible with most common liquid nutrients and micronutrients; however, USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products.

Do not mix with other components without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients.

Conditions of Sale and Warranty

1. Seller warrants that this material conforms to the description on the label and is reasonably fit for use as directed hereon. Seller neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond seller's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon, and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by seller under 1. above) resulting from handling, storage and use of material
