

# Ag Concepts® SuperHume®

## General Recommendations:

Ag Concepts® Super Hume® is a concentrated form of humic acid recommended for use with fertilizers and micro-nutrients. Ag Concepts® Super Hume® can be added to the irrigation water of gravity, sprinkler systems and drip systems. Ag Concepts® Super Hume® can be applied to most vegetable crops, grains, row crops, deciduous fruit and nut trees, grapes, melons, ornamentals, turf, pasture, range grasses and most other crops. Ag Concepts® Super Hume® is a concentrated Humic Acid liquid which may increase the uptake of micro-nutrients. Always check compatibility before mixing products together.

## Application:

**Pre-Plant:** Apply 1-2 gallons per acre of Ag Concepts® Super Hume® incorporated into the soil.

**Side Dress:** Apply 2-6 quarts per acre of Ag Concepts® Super Hume® with liquid fertilizers.

### Foliar Feeding:

**A. Aerial Application:** Apply 2-6 quarts of Ag Concepts® Super Hume® with a foliar fertilizer in 5-10 gallons of water per acre when crop is three (3) to four (4) weeks old. Repeat as needed.

**B. Ground Rig:** Apply 2-6 quarts of Ag Concepts® Super Hume® with a foliar fertilizer in sufficient amounts of water.
