

SG ReLEAF™

0-0-20 Potassium Fertilizer

SG ReLEAF is a potassium fertilizer solution that builds tolerance against physical and mechanical injury as well as environmental stresses. By promoting plant growth and decreasing stress induced photorespiration, SG ReLEAF increases the sugar content within the plant leading to a healthier and more vigorous crop.

Don't miss an opportunity to give your crop some
ReLEAF

- Promotes plant growth by enhancing carbon fixation
- Increases plant turgidity
- Promotes rapid growth and maturing
- Increases sugar content
- Reduces the watering requirement of the plant
- Enhances environmental tolerance of the plant
- Promotes growth in tissues of both juvenile and mature plants

Ounces of SG ReLEAF per Volume of Spray/Tank Solution	
Gallons of Solution per Acre	Ounces of SG ReLEAF
2 - 4	0.75 - 1.5
5	1 - 2
10	2 - 4
25	6 - 8
50	16

SG ReLEAF can be applied as a foliar or soil application to all crops. Applications can be made at planting (if applicable) and as often as every 10 to 14 days throughout the growing season as needed. SG ReLEAF is designed to be added to any pesticide or fertilizer foliar spray. See table at left for application rates for different volumes of spray solution.
