

# Pervaide®

NON-IONIC SOIL PENETRANT

#### Prevention:

Wash skin thoroughly after handling. Wear protective gloves, protective clothing, eye protection, and face protection.

#### First Aid:

If on skin, wash with plenty soap and water. If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. If eye irritation persists, get medical advice/attention. Take off contaminated clothing and wash before reuse.

#### Storage and Use:

Keep container tightly closed. Keep out of reach of children. Do not store at temperatures above 120°F or below 32°F. Keep out of direct sunlight. Check for compatibility before mixing. Shake well before using.

#### Directions for Use

Pervaide® is a uniquely formulated high grade non-ionic soil penetrant. Pervaide® helps reduce crusting, loosens up clay soils, aggregates sandy soil, and allows water to better penetrate the soil by reducing the surface tension of water.

Apply 2 to 4 quarts per acre. Multiple applications can be very effective. Adding Pervaide® through irrigation water is a most effective way to apply Pervaide® to your soil.

#### Mixing Instructions

- \*Add water to tank and begin agitating.
  - \*Add chemicals & fertilizers following manufacturer's instructions.
  - \*Allow chemicals & fertilizers to mix for several minutes
  - \*Add Pervaide®
- Can be mixed with most herbicides and some liquid fertilizers. Always perform a compatibility test in a small container prior to tank mixing.

#### Limited Warranty:

Manufacturer or seller makes no warranty, whether expressed or implied concerning the use of this product, other than for the purposes indicated on the label. Neither manufacturer nor seller shall be liable for any injury or damage caused by this product due to misuse, mishandling, or any application not specifically described on the label.
