STORAGE AND HANDLING: Store in a sealed container in a cool dry place, out of direct sunlight. Store at temperatures above 40 degrees F and below 95 degrees F. Product must be used within 15 days after opening for maximum efficacy. Use within 36 hours of mixing. **Shake well before using**

SG-360 contains Phosphorous Acid. Phosphorous acid products are for use as a supplemental fertilizer treatment. Upon foliar application, the phosphite ions are taken up directly by the plant foliage and may undergo a degree of conversion to phosphate ions, or will be used directly by plants, as phosphite ions. As a soil application to annual crops, a lesser response from the initial crop, with a corresponding superior response from succeeding crops, may be observed. In addition, placement close to seeds or root zones may be injurious to crops. The effect may be aggravated by a soil pH below 6.5.
