

SG Advance[™]
Foliar Spray

Give your crop the extra energy and protection it needs to achieve top yield with SG Advance foliar spray. SG Advance is an exciting new foliar product that combines several technologies designed to both feed the plant and protect it simultaneously. The N-P-K blend is designed to be a balanced macronutrient foliar feed and the specialized micronutrient complex gives enhanced plant health. Fortified with Manganese, Copper, Zinc, Boron, Iron and Molybdenum, diseases are held at bay for a longer period of time when these nutrients inside the plant complete their designed function of enhancing plant immune systems.

Product Details

Apply a minimum of 1/2 gal per acre for growing season

- * Apply 1/2 gal per acre rate in a single spray
- * If making multiple spray applications in a season, apply 1/2 gal per acre with each application.

SG Advance is compatible with most liquid fertilizers and pesticides.
Always perform a jar test prior to tank mixing.

With SG Advance you will have sufficient levels of nutrients and carbon sources to secure better plant health, which is critical in attaining high yields.

Crop Applications:

Corn
Soybeans
Wheat
Alfalfa
Small Grains
Potatoes
