SG Accelerate™ Prime

NON PLANT FOOD INGREDIENTS:

Microbial fermentation extracts……4%
Bacillus subtilis……2.0 x 10^5 cfu/ml
Bacillus amyloliquefaciens……2.0 x 10^5 cfu/ml
Bacillus licheniformis…….. 1.7 x 10^5 cfu ml
Water culture medium……..96%
Total Ingredients……100.0%

Expiration Date:

STORAGE AND HANDLING:

Store in a sealed container in a cool dry place, out of direct sunlight. Store at temperatures above 40 degrees F and below 80 degrees F. Product must be used within 15 days after opening for maximum efficacy. Use within 36 hours of mixing.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Do not ingest. This product is not considered hazardous per GHS standards and does not contain any genetically modified organisms.

Information regarding the contents and levels of metal in this product is available on the internet at http://www.aapfco.org/metals.html

GENERAL INFORMATION

SG Accelerate Prime is a mixture of beneficial microorganisms used as a crop production aid to speed the breakdown of manure applications and crop residues, and increase nutritional availability.

SG Accelerate Prime Uses: Intended for use with row crops, specialty crops, tree crops, and turf.

Conditions of Sale and Warranty

1. Seller warrants that this material conforms to the description on the label and is reasonably fit for use as directed hereon. Seller neither makes nor authorizes any agent or representative to make any other warranty of fitness or of merchantability, guarantee or representation, express or implied, concerning this material.
2. Critical and unforeseeable factors beyond seller's control prevent it from eliminating all risks in connection with the use of chemicals. Such risks include, but are not limited to, damage to plants and crops to which the material is applied, lack of complete control, and damage caused by drift to other plants or crops. Such risks occur even though the product is reasonably fit for the uses stated hereon, and even though label directions are followed. Buyer and user acknowledge and assume all risks and liability (except those assumed by seller under 1. above) resulting from handling, storage and use of material

GENERAL DIRECTIONS FOR USE:

Use 1-2 pints/acre. Apply by water run (sprinkler), spray (air or ground), or injected into fertigation system. Although compatible with most pesticides and nutrients, a jar test is recommended. Otherwise, consult your SummitGold technical representative. Avoid combining with other products for extended periods of time. Some chemicals can be detrimental to the microorganisms. ***Shake well before using.***

SUGGESTED APPLICATION

All Soil, Crop Residues, and Manure Applications: Apply 1-2 pints/acre broadcast over soil, exposed crop residue, or manure applications anytime from post-harvest up through crop emergence.

COMPATIBILITY

SG Accelerate Prime is compatible with most common foliar liquid nutrients and micronutrients; however, USER ASSUMES FULL RESPONSIBILITY to ensure compatibility when tank mixing with other products. Do not mix with other components without a compatibility test. An adequate test for compatibility involves mixing in a small container the proper proportions of the product with water and the other ingredients.
